Subject: RE: Next steps on Swinomish

Hi Angela,

Tony and I discussed the Swinomish subaward. He said that he hasn't been able to identify any other "regulatory" support, aside from the things we have already discussed (most especially, the "substantial EPA involvement" term and condition that we put in the Puget Sound cooperative agreements, including the NWIFC LO award). He said that under that T&C, it would be reasonable to request that work stop on the subaward project until we can resolve EPA's concerns about the acceptability of the deliverables and outputs of the award.

As you know, you and I have a phone call with Swinomish and NWIFC scheduled for this Friday. Here, in summary, are the next steps Tony and I discussed:

- Ask NWIFC and Swinomish to stop work on the Swinomish subaward until we can resolve our concerns – we can do this when we talk to them on Friday.
- Involve ORC. I sent a message to Lisa Castanon today; hoping to meet with her before we meet with Swinomish on Friday.
- Convene a meeting with PSP (for an Action Agenda interpretation perspective), NWIFC, Swinomish, and EPA to resolve EPA's and NWIFC/Swinomish's diverging perspectives on whether Swinomish's work under the subaward is or is not consistent with the Action Agenda. We can propose this to Swinomish and NWIFC on Friday.

Does this sound reasonable? If so, I should reach out to PSP to see if they would be willing to engage in this discussion. I spoke with Jeanette Dorner and the relevant Ecosystem Recovery Coordinators (Scott Williamson and Leah Kintner) about this when I ran into them at the Salmon Recovery Conference, so they are aware of the issue.

L

(b) (6)

Lisa - can you let me know what you and Tony decide the best course of action is?

Thanks,
Angela

Angela and Tony,

(b) (6)

If both of you are in the office on Monday, I reserved a conference room for us (19Orca - the interior larger conference room on 19). Would you be able to patch me in by phone (b) (6) Please let me know if that will work.

Apologies that I may not be there in person,

Lisa
